REGULATION

ON THE FINAL STATE ATTESTATION OF GRADUATES OF SECONDARY VOCATIONAL EDUCATION OF B. OSMONOV JALAL-ABAD STATE UNIVERSITY

Manas – 2026

The Regulation on the final state attestation of graduates of secondary vocational education programs of ZhAGU named after B. Osmonov was adopted by Protocol No. 1 of the Academic Council of ZhAGU dated September 10, 2026, in connection with the approval of a new edition of the Regulation on the final state attestation of graduates of organizations of higher and secondary vocational education by Resolution No. 420 of the Cabinet of Ministers of the Kyrgyz Republic dated June 15, 2026.

General provisions

1. The final state attestation of graduates completing a secondary vocational education program at educational organizations of secondary vocational education (hereinafter referred to as an "SVE educational organization") is mandatory.

2. The final state attestation of graduates is conducted at accredited SVE educational organizations and is completed by issuing a state and/or institutional document certifying the level of education and qualification.

3. The right of graduates who have received education at non-accredited SVE educational organizations to undergo final state attestation and receive a state-standard diploma is ensured through state SVE educational organizations.

4. To conduct the final state attestation of graduates, a State Attestation Commission shall be approved for each specialty at the SVE educational organization. State Attestation Commissions operate for one calendar year.

5. State Attestation Commissions shall be guided in their activities by this Regulation and by educational and methodological documentation developed by the SVE educational organization on the basis of state educational standards for specific secondary vocational education specialties.

Types of final state attestation examinations

6. The final state attestation of graduates consists of the following types of state attestation examinations:

1) defense of a graduation qualification work;

2) state examination;

3) practical training (internship) with preparation of a final report (business plan, startup project, applied project, or other result aimed at practical application and/or possible commercial implementation).

A graduation qualification work may, by decision of the SVE educational organization, be replaced by practical training (internship) with preparation of a final report (business plan, startup project, applied project, or other result aimed at practical application and/or possible commercial implementation).

7. A final examination in an individual discipline shall determine the graduate's level of mastery of the material provided for in the curriculum and shall cover the minimum content of the discipline established by the relevant state educational standard.

8. The graduation qualification work is intended to systematize and consolidate the graduate's knowledge in the specialty when solving specific tasks, as well as to determine the graduate's level of readiness for independent work. The graduation qualification work shall be completed in the form of a diploma thesis or diploma project. Topics of graduation qualification works shall be determined by the SVE educational organization. The graduate shall have the right to choose the topic of the graduation qualification work, including proposing their own topic with a justification of the feasibility of its development. A supervisor and consultants shall be appointed for each graduate during preparation of the graduation qualification work.

The procedure and deadlines for completing practical training (internship) and preparing a final report instead of a graduation qualification work shall be determined by the SVE educational organization on the basis of this Regulation and the relevant state educational standards for secondary vocational education.

9. The amount of time and the type (types) of attestation examinations included in the final state attestation of graduates shall be established by the state educational standard for secondary vocational education specialties. Attestation examinations included in the final state attestation may not be replaced by an assessment of the level of preparation based on current academic performance monitoring and interim attestation of the graduate.

10. Programs of final examinations in individual disciplines and final interdisciplinary examinations in specialties, requirements for graduation qualification works, as well as criteria for assessing knowledge during attestation examinations shall be approved by the head of the SVE educational organization after discussion at a meeting of the educational organization's Pedagogical Council.

State attestation commissions

11. State Attestation Commissions shall be guided in their activities by the legislation of the Kyrgyz Republic in the field of education, this Regulation, state

educational standards for secondary vocational education, educational and methodological documentation developed by SVE educational organizations, and recommendations of educational and methodological councils.

12. The main functions of the State Attestation Commission are:

1) determining whether the graduate's preparation complies with the requirements of the state educational standard for secondary vocational education;

2) deciding on the award of a qualification based on the results of the final state attestation and issuing the graduate the relevant state/institutional document on secondary vocational education;

3) developing recommendations aimed at improving graduate training based on the results of the work of the State Attestation Commission.

13. The Chairperson of the State Attestation Commission shall be a representative of enterprises, institutions, and organizations that are potential employers of graduates in the relevant field, and, in their absence, a Doctor or Candidate of Sciences in the relevant field/specialty. The Chairperson shall be a person who does not work at the respective SVE educational organization. The same person may not serve as Chairperson of a State Attestation Commission for more than two consecutive years.

The SVE educational organization shall independently establish a database of Chairpersons of State Attestation Commissions for each specialty.

14. The State Attestation Commission shall consist of teachers of the SVE educational organization and persons invited from external institutions: employers, teachers of other educational organizations, and specialists from enterprises, organizations, and institutions corresponding to the graduates' field of training. The composition of the members and the Chairperson of the State Attestation Commission shall be approved by the head of the educational organization.

Procedure for conducting the final state attestation

15. The conditions for conducting the attestation examinations included in the final state attestation shall be determined by the SVE educational organization and communicated to graduates no later than six months before the beginning of the final attestation. Graduates shall be provided with examination programs and shall be given the necessary conditions for preparation, including consultations.

16. During a state of emergency/emergency situation, the final state attestation of graduates may be conducted online using distance educational technologies in

accordance with the Procedure for the Application of Distance Educational Technologies in the Implementation of Educational Programs of Higher and Secondary Vocational Education, approved by Resolution No. 76 of the Cabinet of Ministers of the Kyrgyz Republic "On Approval of Regulatory Legal Acts Governing the Application of Distance Educational Technologies" dated February 17, 2025.

At the same time, conducting the final state attestation of graduates online using distance educational technologies is not permitted for disciplines bearing a restricted-access classification requiring compliance with secrecy requirements, as well as for special creative disciplines in SVE educational organizations of culture and arts.

In the event of unforeseen circumstances, for graduates located outside the territory of the Kyrgyz Republic, the final state attestation may be conducted online using distance educational technologies while complying with all procedures for conducting the final state attestation provided for by this Regulation.

17. Graduates who have completed the full course of study under one of the basic professional educational programs and successfully passed all previous attestation examinations provided for by the curriculum shall be admitted to the final interdisciplinary examination in the specialty and to the defense of the graduation qualification work.

A final examination in an individual discipline may be conducted before completion of the full course of study under the professional educational program.

18. Final examinations and defenses of graduation qualification works shall be conducted at open meetings of the attestation commission with the participation of at least two-thirds of its members.

19. The results of state attestation examinations included in the final state attestation shall be assessed according to the point-based system established by the SVE educational organization, with conversion into the grades "excellent," "good," "satisfactory," and "unsatisfactory," and shall be announced on the same day after the commission meeting minutes have been duly prepared.

20. Decisions of State Attestation Commissions shall be adopted at closed meetings by a simple majority of the commission members' votes. In the event of an equal number of votes, the vote of the Chairperson shall be decisive.

21. The corresponding qualification shall be awarded to a graduate of an SVE educational organization and a document on secondary vocational education shall be issued to them provided that all established types of attestation examinations included in the final state attestation have been successfully completed.

22. A graduate who has passed all examinations with grades of “excellent” and “good,” has a Grade Point Average (GPA) of at least 3.75 for the entire period of study, has successfully passed all state attestation examinations, and has defended the graduation qualification work with an “excellent” grade shall be awarded a diploma with honors. The graduate’s GPA for the entire period of study shall be indicated in the diploma supplement.

23. Graduates who did not undergo final attestation examinations for valid reasons (medical indications or documented family circumstances) shall be given the opportunity to undergo the final attestation examinations without being expelled from the SVE educational organization.

Additional meetings of State Attestation Commissions shall be organized in accordance with the procedure established by the SVE educational organization.

Graduates who have not passed the final attestation examinations shall be admitted to repeated final state attestation no earlier than three months and no later than five years after their first final state attestation. Retaking final attestation examinations for the purpose of improving a positive grade is not permitted.

24. The SVE educational organization shall ensure video recording of all meetings of State Attestation Commissions.

25. The results of the final state attestation of graduates shall be considered at a meeting of the Pedagogical Council of the SVE educational organization on the basis of written reports of the Chairpersons of State Attestation Commissions. Minutes of meetings and reports on the work of State Attestation Commissions shall be kept in the archive of the SVE educational organization. The minutes and video recordings of meetings, as well as reports on the work of State Attestation Commissions, shall be kept in the archive of the SVE educational organization. Reports of State Attestation Commissions with recommendations for improving the quality of professional training of specialists shall be submitted electronically to the authorized state body in the field of education and science within two months after completion. If necessary, the authorized state body in the field of education and science has the right to request the originals of the Chairpersons’ reports.

26. Monitoring of the activities of State Attestation Commissions of SVE educational organizations shall be carried out by the authorized state body in the field of education.

Procedure for inspecting the activities of state attestation commissions

27. A decision of the State Attestation Commission to award a qualification to a graduate and issue a diploma of secondary vocational education may be annulled by the authorized body in the field of education and science if significant violations of the procedure for conducting the final state attestation and/or the procedure for issuing educational documents are established and confirmed by the results of an inspection conducted in accordance with this Regulation.

28. If violations of the procedure for conducting the final state attestation of graduates are identified, the authorized body in the field of education and science shall initiate an official (commission) inspection.

29. Violations of the procedure for conducting the final state attestation of graduates include:

1) violation of the established procedure for conducting an examination, defending a graduation qualification work, or other forms of final attestation;

2) use by a graduate during the final state attestation of prohibited materials, means of communication, or other technical devices and/or information storage media;

3) violation of the procedure for admitting a graduate to the final state attestation;

4) participation of third parties in undergoing the final state attestation;

5) falsification of the results of the final state attestation;

6) unjustified absence of a graduate during the final state attestation that affected the admission decision or assessment;

7) other violations of the procedure for conducting the final state attestation established by the educational organization that affected the objectivity and reliability of the assessment of its results.

30. Based on the results of the official (commission) inspection, a conclusion shall be prepared containing the established facts of violations, their nature, and an assessment of the impact of the identified violations on the results of the final state attestation.

31. The person in respect of whom the inspection is conducted shall be duly notified and shall have the right to submit written explanations, as well as other documents and materials supporting their position.

32. Based on consideration of the conclusion of the official (commission) inspection, the authorized body in the field of education and science shall make one of the following decisions:

1) declare the results of the final state attestation invalid;

2) admit the graduate to repeat the final state attestation;

3) determine that there are no grounds for reviewing the results of the final state attestation.

33. A decision declaring the results of the final state attestation invalid shall constitute grounds for annulment of the decision of the State Attestation Commission in accordance with the procedure established by this Regulation.

34. A decision adopted based on the results of an inspection may be appealed in court in accordance with the legislation of the Kyrgyz Republic.
