Formula for Calculating the Total Score for the Ranked List

To calculate the total score: N=M+K,

where N is the total score, M is the average grade from the certificate of secondary education (11th grade) or the certificate of basic general education (9th grade) (hereinafter, the document), and K is the grade in the profile subject for a specific specialty.

To calculate M:

1) A complete list of the grades shown on the document is compiled;
2) The number of subjects for which grades were given is calculated;
3) All final grades are summed;
4) The sum of the grades is divided by the number of subjects.

Example:

Certificate of Basic General Education (9th grade):

#	*Subject titles*	*Final grades*
1.	Kyrgyz Language	*3*
2.	Kyrgyz Literature	*4*
3.	Russian Language	*4*
4.	Russian Literature	*4*
5.	Mathematics	*5*
6.	Computer Science	*4*
7.	History of Kyrgyzstan and World History	*4*
8.	Human and Society	*4*

14.	Technology (manual labor, drafting, and design)	*4*
15.	Visual Arts	*5*
16.	Music	*5*
17.	Physical Education	

For example:

Sum of prices (signs) $=3+4+4+4+5+4+4+4+4+4+4+4+4+4+4+5+5=70$

Number of items $= 17$

$$M = \frac{Total\ price}{Number\ of\ items} = \frac{70}{17} = 4{,}11$$

190701 The "Transportation Logistics and Management" (TLM) specialization was chosen. Profile subjects: Mathematics or Physics.

#	Subject title	Final grades
5.	*Mathematics*	5

To calculate the total score **N=M+K**= 4,11+5= **9,11**

Therefore, the overall score for the ranking list is 9.11
